

*To a woman who planted such love...*

**A gift has been made in your honor to support mothers & families in the Mississippi Delta:**

**Diaper Bank of the Delta** gave away over 350,000 diapers last year to families who couldn't afford them – in rural towns across 20+ counties. They also provide lactation support, parenting classes, period supplies, a milk bank and more.

**Greater Delta Teach for America** lifts up teachers, students, and school systems – even and especially in the pandemic. Over half of Delta TFA alums remain educators, counselors, and even leaders in local school systems.

**Griot Arts** empowers students through after-school arts programs and workforce development at Meraki Roasting Company. Griot has a high graduation rate and supports kids' paths through both school and life.

**Lower Mississippi River Foundation** serves communities along the river and connects kids to their environment. They run programming in schools, on shore, and on the water, making the Mississippi River accessible to all.

**Clarksdale Fuller Center for Housing** builds homes with new homeowners and educates people on the roots of systemic poverty here. They welcome volunteers from across the country, and partner with local families in need of decent, affordable housing.

**Clarksdale Animal Rescue and Shelter** saves struggling animals, and gives them a new life as happy pets with loving families. They also reduce the local need for sheltering and support local pets and families through programs like spay/neuter clinics and a pet food bank.

*Happy Mother's Day!*
